

Testimonials

I did 4 terms of 10 weeks at UFV. I think the teachers knew the material pretty well and did a good job in preparing us for our future as electricians.

Graduate 2010

Great School! Myles and John are some of the best teachers I have had.

Graduate 2010

My experience at UFV has been good. The electrical program has been a great experience. Taught very well and lots of hands on experience.

Graduate 2010

Great program! Teaching was great, learned all parts of electrical even stuff which wasn't part of the curriculum. Teachers did a good job helping with material which I didn't understand during and after class.

Graduate 2010

It was good fun. Staff and Faculty were helpful and friendly. I would recommend UFV to all my friends looking to go to school for a trades course.
