Dental anomalies in individuals with cleft lip and/or palate

M. Okan Akcam*, Sehzazat Evirgen**, Ozge Uslu* and Ufuk Toygar Memikoğlu
Departments of *Orthodontics and **Oral Diagnosis and Radiology, Faculty of Dentistry, Ankara University, Turkey

SUMMARY Significant heterogeneity has previously been reported but with no consensus on the prevalence of dental anomalies in subjects with a cleft lip and palate (CLP), thus, the purpose of this study was to investigate the frequency of various dental anomalies in the upper dental arch in different cleft groups.

Diagnostic records, i.e., panoramic, occlusal and periapical films, dental casts, and intra-oral

DOI

The DOI will look like this:
10.1093/ejo/cjp156

3. To create a persistent link you must add the following prefix to the DOI:

<http://dx.doi.org/>

The persistent link will look like this:

<http://dx.doi.org/10.1093/ejo/cjp156>

Please note that this URL does not include the UFV Library proxy server prefix, which is essential to providing off-campus access to the stable link.

4. To access the article off campus you need to add the following prefix to the existing url:

<http://proxy.ufv.ca:2048/login?url=>

5. The finished URL will look like this:

<http://proxy.ufv.ca:2048/login?url=http://dx.doi.org/10.1093/ejo/cjp156>
