

Creation of Persistent Links SpringerLink E-Books

Persistent links direct students to specific full-text journal documents found in our research databases. These links are stable, and can be accessed from both on and off campus. These links could be used for e-reserves, electronic reading lists or incorporating into Blackboard and other online course resources.

1. From the results list, click on the book URL.

2. Copy the DOI number from the book information.

The DOI will look like this:
10.1007/978-94-007-1232-4

3. To create a persistent link which will link to the article off campus you need to add the following prefix to the DOI:

<http://proxy.ufv.ca:2048/login?url=http://dx.doi.org/>

4. The finished URL will look like this:

<http://proxy.ufv.ca:2048/login?url=http://dx.doi.org/10.1007/978-94-007-1232-4>
