REASONING: AN ESSENTIAL HUMAN ACTIVITY

You are already a critical thinker. In other words, you don't believe everything you are told. You look for good reasons and arguments before you accept claims. This course is designed to make you a superior critical thinker. You will learn how to identify issues and analyse arguments, how to determine whether or not an argument is good or poor, and how to avoid being fooled by misleading language and common fallacies. Moreover, you will learn how to construct good and persuasive arguments for the claims that you want to make. Critical thinking is a skill we need in every facet of our lives and the better you are at thinking critically, the deeper your understanding will be of any issue you may face.

UFV's Plagiarism Policy:

Plagiarism is considered a serious breach of student conduct. Students should be aware that UCFV has policies regarding academic dishonesty, including plagiarism and cheating. The policy defines plagiarism as follows:

Plagiarism occurs when a student presents work or data as original when part, or whole, was written or composed by someone other than the student.

Plagiarism occurs when paragraphs, phrases, sentences, or ideas within the work are taken from another source without referencing or citing the author.

When an instructor has evidence of plagiarism or cheating by a student, the instructor is entitled to assign a score of zero with the first incident, and to issue a written notice that any further incident will result in the student being required to withdraw from the course. With any further incidents of plagiarism or cheating, the student may be required to withdraw formally from the course.
