

UFV Senate Call for nomination 2012

Candidate information

1. I am currently working towards a Bachelor of Science degree. I have not completed a degree at this time.
2. I am a currently unemployed full time student.
3. I am also involved with the Biology and Chemistry Student Association.
4. I have no other professional or business interests.
5. I do not have any publications.

Statement

My name is Deanna Waslewsky and I am a pre-med student currently working towards an honours degree in biology with an extended minor in psychology. I am interested in the senate because I want to become more involved with the university and learn about the establishment and application of academic policy. The exposure and experience that the senate will provide me will enable me to analyze and interpret policy as well as apply policy to a variety of situations. In return, the senate will benefit from my experience as a UFV student and dedication to the welfare and growth of both the university and its student body.
