Statement

As a student at the University of the Fraser Valley, I strive to look for opportunities to get involved beyond the classroom. I am currently completing a one-year term on the UFV Senate, an experience that has been very rewarding and educational as I learn about the opportunities and concerns the University is faced with. I have also participated in various student clubs and associations. I greatly enjoy serving the community around me, and at present that is the students at the University of the Fraser Valley. As a business student, I feel that the UFV Board of Governors would be a stronger fit for my ambitions in life. I would greatly appreciate the opportunity to be appointed to complete a one-year term on the board, and represent my fellow students to the best of my ability as they deserve. Thank you for your consideration.
