

## **Statement on matters rightfully falling under the jurisdiction of the Board**

If it were not for the UFV Board of Governors, who manage, administer and control the property, revenue, business and affairs of the University we would not have successfully begun the huge move to a new campus in Chilliwack. More students will now be able to receive their education in the newest state of the art facilities. I would like to be a part of the membership which will help shape the present and future of the University of the Fraser Valley. I would bring a duality of understanding to the board, being not only involved in education but as a businessman running my own small business (Circle G Farm). I think I can help make the important decisions which will allow the different departments to grow and become renowned participants in academia at the highest level.
