

Peyman ADLDOUSTI-HAGH
Nominee for Senate Position at the UFV

Academic:

1. On June 18th, 2002 I graduated from University of Toronto with a bachelor of arts in sociology and minor in political science.
2. On April 16th, 2010 I graduated from University of Victoria with a diploma in public administration.

Publishing:

1. I have published four books about Middle East affairs under my Pen name.

Community involvement:

1. I worked with AIDS Vancouver from March 2009 to August 2010 on premise of survey and public awareness campaign about STD and HIV.
2. Since March 2010 I have been working with the Salvation Army in Abbotsford working with the kitchen crew.

My platform:

1. I believe in social equality and not social inequality. I have been speaking with students at the UFV, and everyone tells me that they are frustrated with idea of early class registration which is causing them to leave this university. As a result, this educational system is teaching young mind to be in power position and to create a system of advantage and disadvantage. I will propose to be removed and everyone have equal right to register at the same time.
2. Scrapping any privileges for any student body to have a free parking spot. Let's remember any money which is spending in this university, it is for their own future, and contributing to improvement of this establishment. So, this university would have opportunity to fund its programs.
3. I will ask the Senate office not to use multiple choice because it does not reflect students academic knowledge since they really do not represent any academic merit.
4. I have a diploma in public administration, and gained insightful knowledge about program evaluation which enables me to be a great asset to the University of the Fraser Valley on program evaluation.¹ I am in touch with students at the UFV, who would like to obtain their economics degree, but they cannot and forced to leave the UFV to another academia.²
5. The bottom line, look at the bright future and not where we are at this time, today we are working hard to build a better and bright future for all of us, and by investing today in this university, we are making tomorrow's leaders to lead Canada beyond its expectation.
6. Remember this is not another university, but it is a family tradition where you children will come here to study too.
7. God bless

This is not Another University but It Is a Family Tradition
