University governance and policy development

Publications

Electrical Apprenticeship Program training materials Learning Guide B-2 (2010)
Electrical Apprenticeship Program training materials Learning Guide F-3 (2011)

Statement

For the past three years I have had the pleasure and honour of representing the Faculty of Trades and Technology on Senate. This has included regular attendance at both the Senate and requisite sub committees meetings.

While the senate serves the entire UFV community, it has been difficult for professional day based training faculty to participate. I was pleased to be involved with Tom Baumann and others in helping to bring about a change in the Senate meeting time that is more inclusive.

The Faculty of Trades and Technology was well served by both Tom Baumann and I. We have brought the Faculty challenges and concerns to the university community, as a full and active participant.

I have enjoyed the work and opportunity to serve as your representative on Senate. I look forward to continuing the work that has begun and serving as your representative on Senate again.
