Statement

Every student has a role to play at UFV. We all contribute to the culture in our own way, and expect quality education. Surrounding this though, is the structure: the policies and procedures which define our educational experience. This foundation for UFV is designed to create the best possible environment for everyone, faculty and students alike, but an environment for everyone is only possible when everyone takes part in its creation. I will take an active role, with my fellow student representatives, to ensure that the student perspective is heard whenever student interests are affected. UFV has grown dramatically over the recent years, and all parties must have a voice as further growth and change occurs. UFV has a bright future ahead as an institution, and as students, we too have our role in creating future success.
