Details:

Co-operative Education experiences are graded on a Credit/No Credit basis. Co-op Coordinators, in consultation with the students' direct supervisors in the workplace, assign the grade when the required number of hours and all required assignments have been completed.

The grade of Credit/No Credit will be based on satisfactory completion of all the following:
Assignments:
- Learning goals plan (20%)
- Work-term reflective assignment (40%)
Field evaluation:
- Completion of hours (10%)
- Supervisor assessment of responsibilities/expectations (30%)

NOTE: The following sections may vary by instructor. Please see course syllabus available from the instructor.

Typical Instructional Methods *(Guest lecturers, presentations, online instruction, field trips, etc.)*

Students must complete a Co-op and Career Education workshop prior to their first co-op work term. The workshop hours are not a part of the Co-op Work Term.

Each work term is unique. The student's work term may be on-site, remote, or blended. While on a work term, the duties and responsibilities are set by the employer/ supervisor according to the job description and contract. Students are expected to work closely with their supervisor to ensure job requirements and performance expectations are clear, achievable, and provide opportunity for integration of academic knowledge and skills.

Focused on a relational approach to assessment, Co-op Coordinators will monitor student success through conversation and feedback on the orientation assignment, site visits, and work term reflective assignment. Co-op coordinators support student wellbeing throughout the work term by encouraging students to discover ways their giftedness contributes to a meaningful work integrated learning experience.

Texts and Resource Materials *(Include online resources and Indigenous knowledge sources. Open Educational Resources (OER) should be included whenever possible. If more space is required, use the Supplemental Texts and Resource Materials form.)*
