LEARNING OBJECTIVES / GOALS / OUTCOMES / LEARNING OUTCOMES:
In a stepped sequence, by means of pictures, oral activities, videos, tapes and dialogues, students will learn to communicate in natural, relatively spontaneous French interchanges. Concepts learned in FREN 100 and 101 will be reviewed and refined. By the end of 102, students will have seen all the major tenses and will be able to understand and express relatively sophisticated concepts in French.

METHODS:
Students will learn French by pictures, gestures, slides, music, tapes, dialogues, plus various conversational drills and workbook exercises to develop skills in communicating in French without reverting to English translation. Material to be learned will be constantly introduced, practiced, reviewed and reused in an overlapping way so students can learn vocabulary and grammatical structures gradually in a step by step fashion.

Credit can be awarded for this course through PLAR ☒ Yes ☐ No
