 COURSE NAME / NUMBER

LEARNING OBJECTIVES / GOALS / OUTCOMES:

1. To develop an understanding of the theme of human use of earth in cultural geography.
2. To appreciate the relationship between environmental perception, culture, history, and human action in the environment.
3. To recognize the degree to which environments have been altered by human activity in the past and are being altered in the present.
4. To survey current thought on the human role on the earth as it appears in the literature of geography and reflect development in environmental history, philosophy and theology.

METHODS:

Lecture / Seminar format. Lecture will introduce topics which will be explored in the seminar through student discussion of assigned readings.

PRIOR LEARNING ASSESSMENT RECOGNITION (PLAR):

Credit can be awarded for this course through PLAR YES _____ NO _____

METHODS OF OBTAINING PLAR:**TEXTBOOKS, REFERENCES, MATERIALS:**

I. G. Simmons, Environmental History, A Concise Introduction. Oxford, England, and Cambridge, USA.

All students should have access to a recent edition of Goode's World Atlas and Northey and Knight, Making Sense in Geography and environmental Studies. Students who have not taken Geography 111 should be familiar with Goudie, The Human Impact on the Environment. These books are all available in both the library and the bookstore.

SUPPLIES / MATERIALS:

Courses in Geography may have mandatory field trips with additional fees. Details are available on course outlines distributed in class.

STUDENT EVALUATION:

Three short quizzes	20%	
Final examination	30%	
Seminar assignments/Participation	10%	
Book review	20%	
Group project and paper		20%

COURSE NAME / NUMBER
