PROGRAMS AT A GLANCE

You might be looking to earn a university degree as a step towards a professional career, obtain a certificate or diploma in a particular field or trade, upgrade your current skill set to improve your employment opportunities, or study for enjoyment. Whatever your motivation, UFV is the place to get those dreams underway, today.

You can pursue your goals in a variety of ways: full-time, part-time, in-class, online, as part of a structured program or one tailored completely to your interests.

If you live, work, or play in the Fraser Valley, you know what a special region this is. The University of the Fraser Valley was created by the communities of the valley and is committed to providing exceptional post-secondary instruction and a nurturing learning environment close to home.

With nearly 15,000 students, UFV is large enough to offer variety yet small enough to offer you the personal attention you need to thrive. Priority is placed on meeting your personal learning goals: small classes and a focus on teaching mean that you get to know your instructors and learn in a hands-on environment.

UFV offers a wide range of educational options, including two master’s degrees, 15 bachelor’s degrees (with majors, minors, and extended minors in more than 30 subject areas), almost 100 diploma and certificate programs, and more than a dozen trades and technology credentials.

Many of our programs “adder” into one another, allowing you to keep your options open by earning a one-year certificate and/or a two-year diploma on the way to completing a full degree. You can also get started on professional careers like medicine, law, veterinary medicine, engineering, accounting, or physiotherapy. Many of our programs offer a co-operative education option, where you can combine study with supervised, professional, paid, work experience. Our international programming makes for a culturally diverse student body and great opportunities to study abroad.

UFV strives to be a place of learning that recognizes, respects and includes an indigenous world view. Our campuses in Abbotsford, Chilliwack and Mission, and our locations in Hope and Agassiz are located on traditional Sto:lō territory. We also have a growing presence in Chandigarh, India.

UFV is consistently ranked among the top universities in the country in the Globe and Mail’s Canadian University Report.
