

Bachelor of Kinesiology Orientation 2021

Please be aware that this presentation will be recorded. The purpose for which this lecture will be recorded is to make it available for you and /or students that are not able to attend to view at a later time. Please note that if you participate, your participation will be recorded. If you do not wish to be identified, please turn off your webcam and do not share any personally identifiable information.

Territory acknowledgment

Long before Canada was formed, the Stó:lō (people of the river) occupied the land on which UFV is located. They lived in the Fraser Valley and lower Fraser Canyon of British Columbia and they spoke Halq'eméylem, also known as the upriver dialect.

UFV recognizes and honours the contribution that Aboriginal people have made — and continue to make — to our community. UFV supports Indigenous learners and seeks to incorporate indigenous ways of knowing in the curriculum.

Congratulations and welcome to UFV's Bachelor of Kinesiology! Woot woot!

Amber Johnston – Faculty, BKIN

Kristen Switzer – Academic Advisor, BKIN

Welcome from the Department Head

Thank-you for attending this session, and of course, thank-you for your interest in our program. With the COVID-19 pandemic likely still having an impact on the approaching fall semester, I realize that the start to your university career is not what you were expecting. However, as we inch towards normal, please know that KIN faculty continue to work tirelessly to ensure that when fall arrives you will have the best possible learning experience. I can't state this enough. If I can offer you one piece of advice as you are about to enter the KIN program, it is this: Please take advantage of all the "hands-on", practical learning experiences we offer. I am excited about the many memorable experiences that are in store for you as you move through your Kinesiology program, and I look forward to sharing many of these with you. In the meantime, stay active, stay healthy, and stay well.

Best,

Jason Brandenburg, Associate Professor & Director, School of Kinesiology

Department Head: Jason Brandenburgemail <u>Jason.Brandenburg@Ufv.ca</u>

Academic Advisor: <u>advising@ufv.ca</u>

Department Assistant: Myra Hughes – email <u>kininfo@ufv.ca</u>

COVID19 and Fall 2021 UNIVERSITY

Provincial Health Officer, Dr. Bonnie Henry, and the Minister of Advanced Education and Skills Training (AEST), Anne Kang, have announced a return to in-person instruction in September 2021 for post-secondary institutions across BC. This includes the University of the Fraser Valley. (Read Dr. Henry's letter to BC post-secondary presidents here and the AEST news release **here**).

As UFV begins to plan for September, the university's priorities remain the health and safety of students, faculty, staff, and our community. At every step, UFV will be working with provincial health and safety organizations to ensure a safe, healthy, and organized return to campus in the Fall.

"I know it has been a very challenging time. Students, faculty, and staff have demonstrated heart, tenacity, and dedication under tough circumstances," said Dr. Joanne MacLean, President of UFV. "Thank you to faculty and staff for your ongoing devotion and perseverance in delivering education and services to students and to students for your ongoing devotion and perseverance in pursuing your educational goals. While the roll-out of vaccines and this announcement provide encouragement for the Fall, the pandemic is not over, and we must still work diligently to curb the spread of COVID-19."

The university has begun planning to make the transition to safe, broad-scale, face-to-face learning in our classrooms and activities on our campuses.

4 methods of course delivery:

In-person Hybrid Online Hyflex

KIN Values

Diversity. We value all people in their diversity and recognize the dignity inherent to each person. Therefore, the department strives to cultivate postures of openness towards all people and their cultures, backgrounds, talents, disciplines, abilities, and points-of-view.

Key words: Accepting, Inclusive, Openness, Fidelity

Character. We value the habits of virtue and the integrity of professionalism. Accordingly, the department strives to nurture respectfulness, honesty, integrity, humility, dependability, and other attributes and manifestations of good character, service, and professional ethics.

Key words: Honesty, Responsibility, Accountability, Integrity, Courage, Collegiality, Growth, Respect

Academic Rigor. We value sound scholarship, scientific enquiry, careful methodology, and interdisciplinary forms of knowing within and beyond the academic disciplines in kinesiology. Through high quality teaching and co-curricular opportunities, we aim to foster both thoughtful and engaged students and co-professionals. *Key words: Engagement, Curiosity, Student Centered, Evidence-based, Critical Thinking, Self-reflection, Excellence*

Physical Activity. We value lifetime physical activity and the significant contribution it makes in promoting physical performance, fitness, health, and quality of life. We therefore strive not only to cultivate physical literacy but also to lower barriers to participation.

Key words: Wellness, Physical literacy, Participation, Engagement

What is Kinesiology?

As the study of human movement, kinesiology explores a broad range of topics that include anatomy, biomechanics, exercise physiology, sociology, education, active health, wellness, and nutrition.

Kinesiology – About US

- <u>www.ufv.ca/kinesiology</u>
- Department within the Faculty of Health Sciences
- 19 faculty members (15 permanent; 4 one-year contract)
 - 80% are on the Chilliwack campus
 - 20% are on the Abbotsford campus
 - several "sessional" instructors
- approximately 300 students in our program
 - 90 graduating students per year
- offer a B.Kin. degree
 - three program specializations:
 - 1. Exercise science
 - 2. Pedagogy
 - 3. Active Health

- In the Kinesiology program, you go well beyond the questions of how and why we move, and start to explore how we can optimize the human potential for health, performance, and overall wellness.
- In your first and second year, you learn foundational topics such as human anatomy, sport psychology, biomechanics, and human nutrition, as well as physical activity, health, and fitness. You explore a variety of fields that may be of interest before choosing to specialize in exercise science, pedagogy, or active health.
- In your third and fourth year, you develop skills for teaching and counselling athletes, and learn about athletic injuries, research methods, applied ethics, physiology, exercise testing, and exercise prescription.

Graduation requirements

- 120 total credits
- 48 upper-level credits, including at least 38 upper-level KIN credits (including core and specialization) (see Notes 1 and 2)
- Core course requirements (49 credits)
- One area of specialization in Kinesiology, declared by the completion of 60 credits (see Note 3) (19-22 credits)
- Literacy requirement (3 credits)
- Numeracy requirement (3-4 credits)
- Breadth requirements (12 credits of non-KIN courses)

Specialization – Exercise Science

- Provides preparation for those pursuing careers as:
 - Kinesiologist
 - Personal Trainer/Exercise Physiologist
 - Graduate school
 - Master's and Ph.D. degrees in Kinesiology

– Preparation for admittance to a professional program

- medicine
- physiotherapy
- chiropractic
- massage therapy
- occupational therapy

Specialization – Pedagogy

- Provides preparation for those pursuing careers in instructional settings:
 - Education/pedagogy and physical literacy
 - Community recreation facilities as instructors
 - Administrators
 - Coaching
- Students can tailor their electives to support their career goals, such as:
 - Business
 - Biology
 - Math
 - Geography
 - Psychology
- Preparation for admittance to:
 - Teacher Education programs
 - Professional programs such as nutrition, rehabilitation studies
 - Graduate school
 - Master's and PhD degrees in Education, Kinesiology, Leadership

Specialization – Active Health

- Provides preparation for those pursuing careers in instructional settings:
 - Community and corporate health and wellness
 - Personal training
 - Athletic therapy
 - Sports psychology
 - Community recreation
- Preparation for admittance to:
 - Athletic Therapy
 - Sports Psychology
 - Graduate school
 - Master's and PhD degrees in Kinesiology related areas

Timetable and Registration

On May 28th, the timetable will be available

Every student will be assigned a specific registration date and time, starting on/or after June 14th

Recommended

First year courses

For those of you who will be following the <u>Exercise Science specialization</u>, here are the courses we recommend you register in for the Fall and Winter semesters: * for <u>Active Health specialization</u>

Fall Semester	Winter Semester
KIN 161	KIN 163
KIN 170	KIN 160 or 103
Biology 111 (*Business 100)	Statistics course (STAT 104/106/PSYC 110)
English 105 or CMNS 125	One non-KIN elective

Those who are following the Pedagogy specialization, here are the courses we recommend:

Fall Semester	Winter Semester
KIN 121	KIN 122
KIN 161	KIN 163
KIN 170	Statistics course (STAT 104/106/PSYC 110)
English 105 or CMNS 125	One non-KIN elective

If you are unsure of which specialization, here are the courses we recommend for the Fall semester:

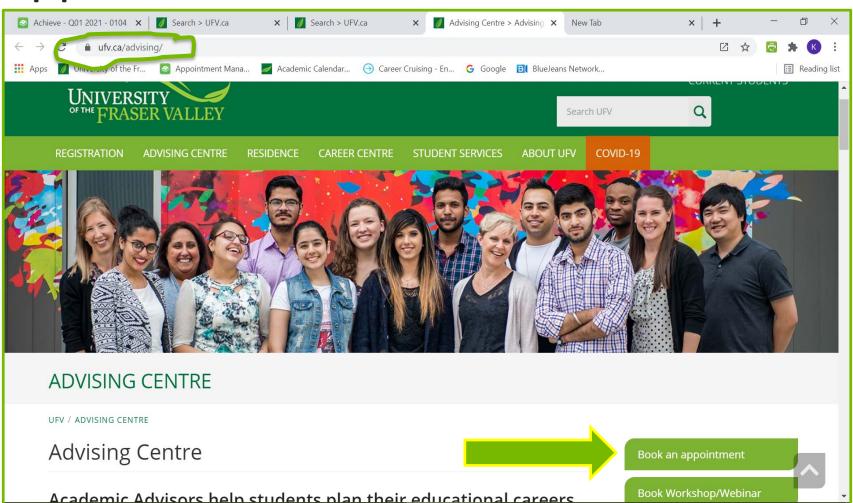

KIN 161 KIN 163 KIN 170 English 105 or CMNS 125 OR Statistics course (STAT 104 or STAT 106 or PSYC 110)

What does an Academic Advisor do?

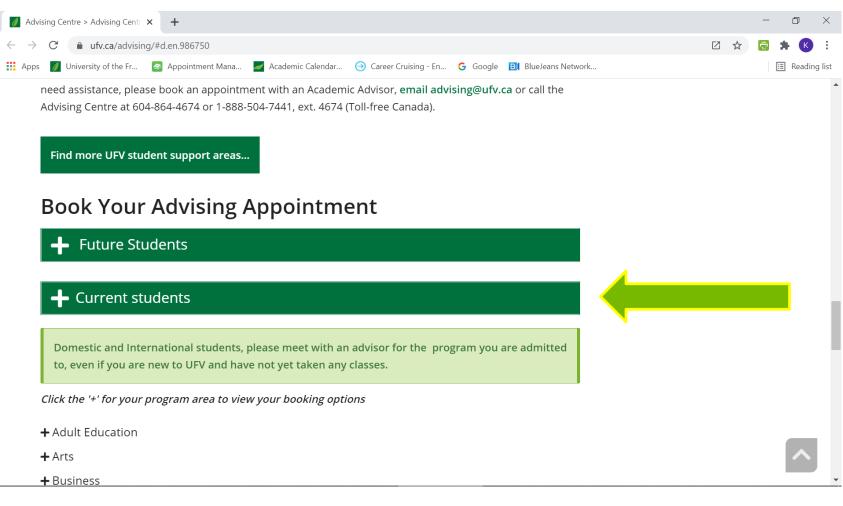

- Book an appointment (phone/virtual/in-person) at least once a year but preferably once a semester. We will work together to map out your courses for your future semesters to make sure you are on track to graduate and taking the correct courses for grad school/career objectives.
- If you're struggling and not sure where to start, start by making an Advising appointment and I will direct you to the right services for your needs.
