AUDITORS' REPORT

To the Board of
University of the Fraser Valley

We have audited the statement of financial position of the University of the Fraser Valley as at March 31, 2010, and the statements of operations and net assets, revenue, expenditures, changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the University as at March 31, 2010 and the results of its operations, changes in its net assets and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

UNIVERSITY of the FRASER VALLEY

Notes to Financial Statements

Year ended March 31, 2010

General:

The University of the Fraser Valley is a post-secondary educational institution funded in part by the Province of British Columbia and is incorporated under the University Act of British Columbia. The University is exempt from income tax under the Income Tax Act.

1. Significant accounting policies:

(a) Basis of presentation:

The financial statements of the University have been prepared in accordance with accounting principles established by the British Columbia Ministry of Advanced Education and Labour Market Development operating in the Province and conform in all material respects with Canadian generally accepted accounting principles.

(b) Fund accounting:

The University follows fund accounting practices. Available resources and their related expenditures are recorded in separate funds in accordance with determinations made by the Board and limitations and restrictions imposed by sources outside the University.

Funds consist of:

Operating - revenue and expenditures relating to general operations.

Capital - investment in capital assets as well as related financing activities.

Ancillary Services - revenue and expenditures relating to the bookstore, student residences and to the parking services.

Trust - receipts and disbursements for specific externally restricted purposes such as scholarships and bursaries.

UNIVERSITY of the FRASER VALLEY

Notes to Financial Statements (continued)

Year ended March 31, 2010

1. Significant accounting policies (continued):

(c) Revenue recognition:

The University follows the deferral method of accounting for contributions which include donations and government grants.

Under the University Act and regulations thereto, the University is funded by the Province of British Columbia in accordance with budget arrangements established by the Ministry of Advanced Education. Operating grants are recorded as revenue in the period to which they relate. Grants approved but not received at the end of an accounting period are accrued. Where a portion of the grant relates to a future period, it is deferred as unearned revenue and recognized in the subsequent period that the related expenditures are incurred. These financial statements reflect agreed arrangements approved by the Ministry with respect to the year ended March 31, 2010.

Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Deferred contributions represent externally restricted funds received for which the related expenditure has not yet been incurred. These contributions are recognized as revenue in the period in which the related expenditures are incurred.

Contributions received and utilized for the purchase of capital assets are recorded as deferred capital contributions and such amounts are amortized into revenue at a rate corresponding with the amortization rate for the related capital assets.

Restricted investment income, specifically investment income earned by endowment funds, is recognized as revenue in the year in which the related expenses, specifically scholarships, bursaries and related costs, are recognized. Unrestricted investment income is recognized as revenue when earned.

(d) Interfund balances:

Interfund balances are without interest or specific terms of repayment.

(e) Short-term investments:

Short-term investments, which are recorded at market value, include investments with terms to maturity of greater than three months and less than one year when purchased and are classified as held for trading.

(f) Investments:

Investments, which are recorded at market value, include investments with terms to maturity of greater than one year when purchased and are classified as held for trading.

UNIVERSITY of the FRASER VALLEY

Notes to Financial Statements (continued)

Year ended March 31, 2010

1. Significant accounting policies (continued):

(g) Inventories:

Inventories are valued at the lower of cost and net realizable value with cost defined as weighted average cost.

(h) Capital assets:

Purchased capital assets are recorded at cost and contributed capital assets are recorded at their fair value on the date of contribution. Capital assets are amortized on a straight-line basis over the estimated useful life of the asset as follows:

Buildings	20-40 years
Furniture and equipment	2-5 years
Library books	10 years
Site improvements	10 years
Leasehold improvements	Life of the lease

(i) Impairment of capital assets:

If it is determined that the net carrying amount of a capital asset exceeds its long-term service potential, the capital asset is written down to its residual value, if any.

(j) Capital funding:

Capital funding from the Province of BC in the form of prepaid capital advances is recorded as deferred capital contributions and amortized to revenue in order to match the expense generated through amortization of the capital assets acquired with the funds. Any debt obligations associated with capital contributions are the responsibility of the Province and reported at the Provincial level.

(k) Unearned revenue:

Unearned revenue represents tuition fees and contracted service fees received for specific courses or projects which were not completed at year end. Where a grant is received that relates to a future period, it is deferred as unearned revenue and recognized in the subsequent period that the related expenditures are incurred.

(l) Salaries and wages:

Operating expenditures relating to vacation pay entitlements are recorded as earned.

UNIVERSITY of the FRASER VALLEY

Notes to Financial Statements (continued)

Year ended March 31, 2010

1. Significant accounting policies (continued):

(m) Employee future benefits:

The University accrues its future obligations under employee benefit plans related to the supplemental employment benefit for faculty on maternity or parental leave. The University is a member of multi-employer pension plans and applies defined contribution plan accounting.

(n) Use of estimates:

The preparation of the financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the reporting period. Actual results could differ from those estimates.

(o) Financial instruments:

The University has classified cash, short-term investments and investments as held for trading, accounts receivable as loans and receivables and accounts payable and accrued liabilities and long-term loans as other financial liabilities. The University has not identified any embedded derivatives that are not closely related to the host contract and currently the University does not have any financial instruments that would qualify for hedge accounting.

(p) Adoption of new accounting standards:

(i) Revisions for Not-for-Profit accounting standards:

Effective April 1, 2009, the University adopted the amendments to CICA Handbook Sections 4400, *Financial Statement Presentation by Not-for-Profit Organizations*, and 4470, *Disclosure of Allocated Expenses by Not-for-Profit Organizations*. The amendments removed the requirement to disclose net assets invested in capital assets, clarified capital asset recognition criteria and amortization, expanded interim financial statement requirements to not-for-profit organizations that prepare interim financial statements, and added a requirement for disclosure of allocated fundraising and general support expenses by not-for-profit organizations, and a requirement to follow Handbook Section 1540, *Cash Flow Statements*. The application of these amendments did not have any impact on the University's financial statements.

UNIVERSITY of the FRASER VALLEY

Notes to Financial Statements (continued)

Year ended March 31, 2010

1. Significant accounting policies (continued):

(p) Adoption of new accounting standards (continued):

(ii) Financial instruments:

During the University's 2010 fiscal year, the CICA announced that not-for-profit organizations could elect to continue to apply Handbook Section 3861, *Financial Instruments - Disclosure and Presentation*, in place of Handbook Sections 3862, *Financial Instruments - Disclosure* and 3863, *Financial Instruments - Presentation*. The University has elected to continue to apply the financial instrument disclosure and presentation standards in accordance with Section 3861.

2. Future changes in accounting policies:

The University is classified as a not-for-profit organization. The Accounting Standards Board and Public Sector Accounting Board have released exposure drafts relating to the future of financial reporting by not-for-profit organizations. The University is in the process of reviewing the potential impact of the proposals on its reporting framework and financial statements.

3. Financial statement presentation:

These financial statements reflect the financial position, operations and cash flows of the University.

Financial information relating to the University of the Fraser Valley Foundation (the "Foundation") is presented in Note 14. The Foundation is incorporated under the Society Act of B.C. and is a registered charity under the Income Tax Act. The Foundation is dependant on the University for management and administration services. According to the Foundation's bylaws all resources of the Foundation must be provided for the benefit of the University and its students, and the Foundation has certain Directors in common with the University. The financial position, results of operations and cash flows of the Foundation are not consolidated with those of the University.

4. Capital management:

The University receives its principal source of capital through funding received from the Ministry of Advanced Education. The University defines capital to be net assets and deferred capital contributions.

The University's objective when managing capital is to fund its operations and capital asset additions. The University manages the capital structure in conjunction with the Ministry of Advanced Education and makes adjustments based on available government funding and economic conditions. Currently, the University's strategy is to monitor expenditures to preserve capital in accordance with budgeted funding granted by the Ministry of Advanced Education.

9. Internally restricted net assets:

Internally restricted net assets committed for specific purposes include research start-up, curriculum development, commitments for the completion of special projects/programs, and capital purchases.

10. Scholarship and bursaries trust fund:

In October, 1984, an endowment fund in the name of the University was established with the Vancouver Foundation. Capital of this endowment fund (\$160,000 cost as at March 31, 2010) is held by the Vancouver Foundation and its use is restricted. Income earned by the fund is paid semi-annually to the University.

The fund balance is made up of various endowments as well as funds yet to be awarded for bursaries and scholarships. The disbursement of these funds is restricted to the criteria set out in each of the endowment, bursary or scholarship awards.

11. Pension plans:

The University and its employees contribute to the College Pension Plan and Municipal Pension Plan, jointly trustee pension plans. The boards of trustees for these plans represent plan members and employers and are responsible for the management of the pension plan including investment of the assets and administration of benefits. The pension plans are multi-employer contributory pension plans. Basic pension benefits provided are defined. The College Pension Plan has about 12,000 active members from college senior administration and instructional staff and approximately 3,900 retired members. The Municipal Pension Plan has about 158,000 active members, with approximately 5,400 from colleges.

Every three years an actuarial valuation is performed to assess the financial position of the plan and the adequacy of the plan funding. The most recent valuation for the College Pension Plan as at August 31, 2006 indicated an unfunded liability of \$54 million for basic pension benefits. The next valuation will be as at August 31, 2009 with results available in 2010. The most recent valuation for the Municipal Pension Plan as at December 31, 2006 indicated a surplus of \$438 million for basic pension benefits. The next valuation will be as at December 31, 2009 with results available in 2010. The actuary does not attribute portions of the unfunded liability to individual employers. The University of the Fraser Valley paid \$1,085,195 (2009 - \$1,033,406) for employer contributions to the Municipal plan and \$3,271,667 (2009 - \$3,025,273) to the College plan in fiscal 2010.
