

Zoom - How to Join from a Browser

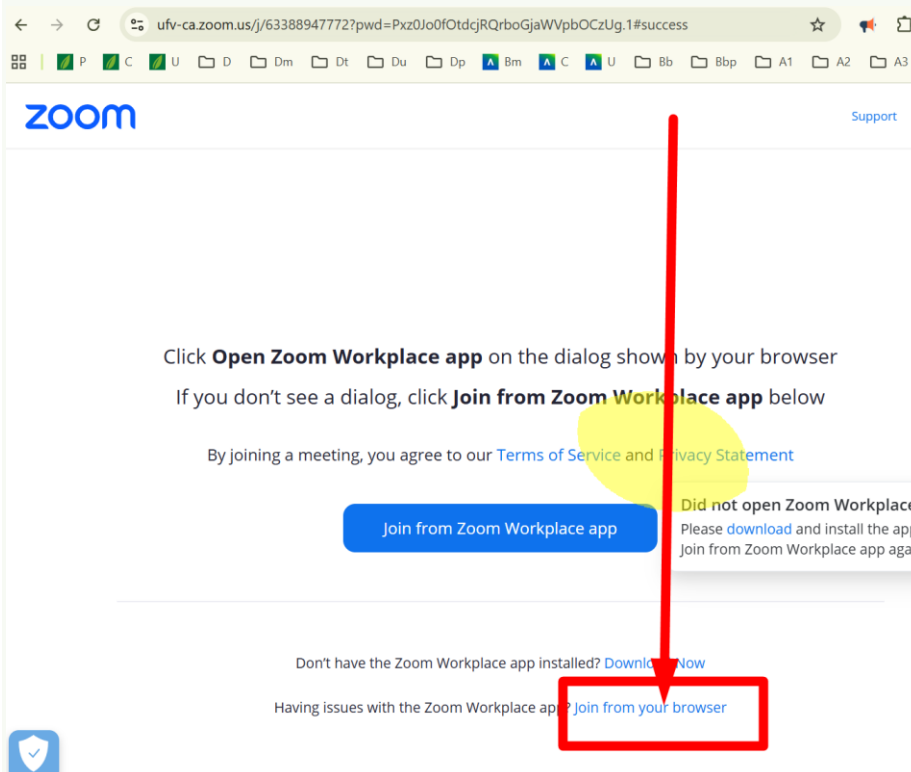

Email: askTLC@ufv.ca

Video: video.ufv.ca

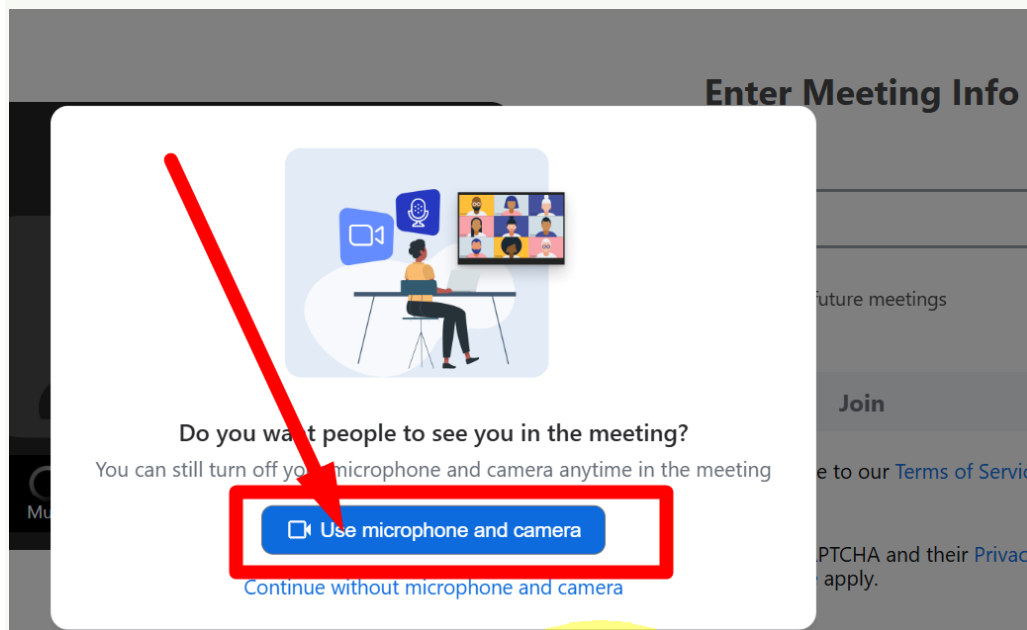

1] **Cancel** in a pop-up window. You might click Cancel two or three times. Chrome (browser) is recommended. The meeting host should enable [\[Show a "Join from your browser" link\] here](#).

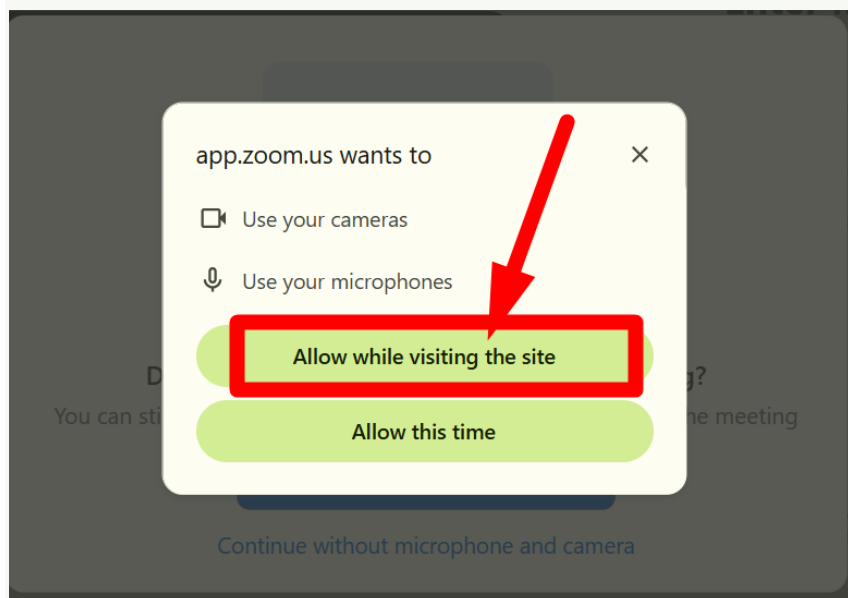

2] (bottom) **Join from your browser**

3] **Use microphone and camera.** You might see a different pop-up, but allow the use of your microphone and camera.

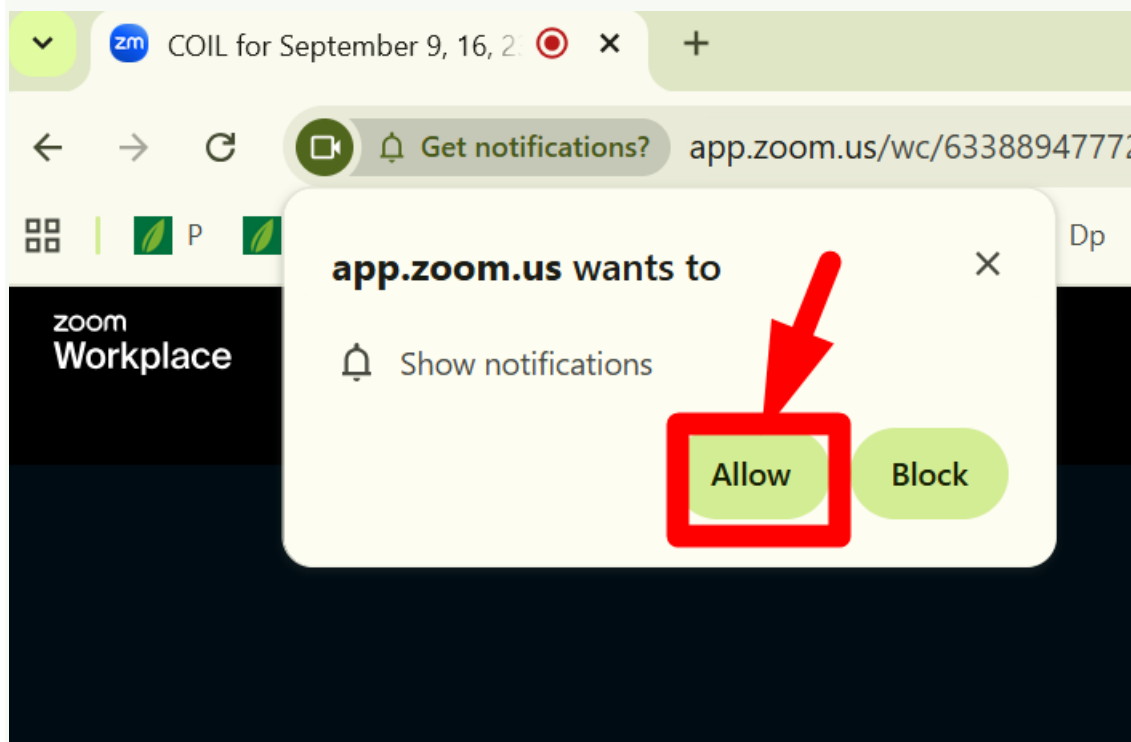

4] **Allow while visiting the site.** You might see a different pop-up, but allow while visiting/using the site.

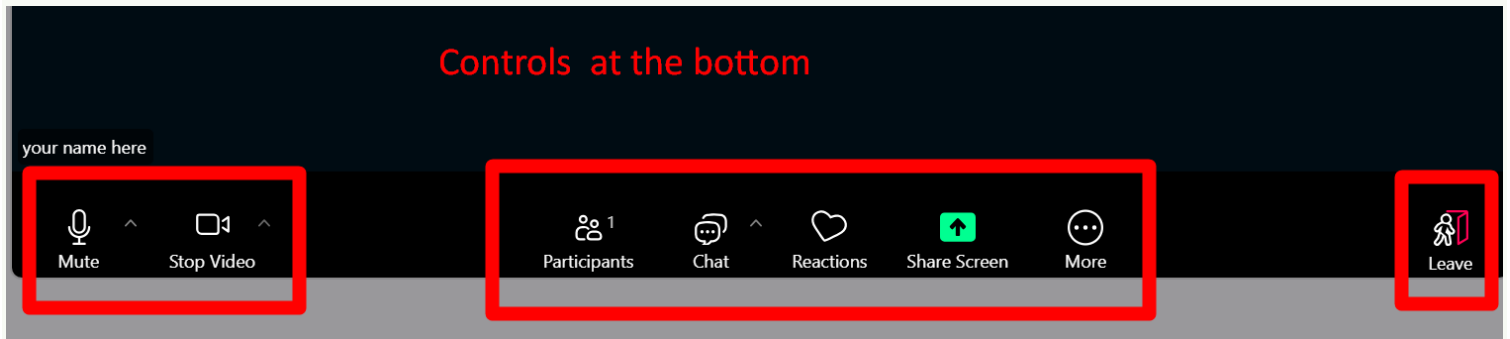

5] Fill in **Your Name**, choose **Remember my name** and **Join**.

The screenshot shows the Zoom 'Enter Meeting Info' screen. On the left is a dark blue video player with a 'Mute' button and a 'Stop Video' button. On the right, under the heading 'Enter Meeting Info', there is a text input field labeled 'Your Name' containing the placeholder text 'your name here'. Below this is a checkbox labeled 'Remember my name for future meetings' which is checked. At the bottom right is a large blue button labeled 'Join'. Red boxes and arrows highlight these three elements: the 'Your Name' field, the checked checkbox, and the 'Join' button. Below the 'Join' button, there is small text: 'By clicking "Join", you agree to our Terms of Service and Privacy Statement.' and 'Zoom is protected by reCAPTCHA and their Privacy Policy and Terms of Service apply.'

6] **Allow**. You might see a different pop-up, but allow notifications.

7] The **control buttons** appear at the bottom. If the bottom has no control buttons, move your mouse to the bottom and then the control buttons will appear. Use **Chat** in the middle of the control panel to send your messages, share resources, etc.
