Objective

UFV strives to obtain goods and services in an open, fair, transparent and non-discriminatory manner that provides the best value to UFV through a public competitive bidding method to select the right supplier for your purchase or project involving acquisitions over $75,000. Procurement Services works closely with you to create a Competitive Bidding Document that best captures your needs. It is this document that we post publicly on Bonfire and upon closing, help you to evaluate submissions to select the right supplier for your needs. The objective of the entire process, which typically can take anywhere from 8-12 weeks, is to assist you in purchasing the goods and services that meet your department’s unique needs. This process offers you best value, while satisfying UFV’s Purchasing and Competitive Bidding Policy (130) and our obligations under Provincial and Federal Trade Agreements and Canada’s public procurement law.

Roles & Responsibilities

**Project Team**

The Project Team includes members from your department and Procurement services, who work together to detail the requirements of your project, in a document called Appendixes C & E.

Tips for Communicating with Suppliers

1. All suppliers must be treated fairly and impartially. Conduct business communications with integrity, fairness, and openness in compliance with our Purchasing and Competitive Bidding Policy (130).

2. Avoid situations that may present conflicts of interest while dealing with persons or organizations doing business or seeking to do business with the UFV.

3. Declare any conflict of interest to Procurement Services that could give a supplier an unfair advantage during the competitive bidding process.

4. Don’t accept favours or gratuities from current or potential suppliers to UFV.

5. When doing market research, please make it clear to any potential supplier that UFV must conduct an open competitive bidding process, and that information acquired in the market research phase may be used to assist in the development of a competitive bid document.

6. Do not express preferences or opinions about a particular product or service to avoid a misunderstanding that a particular product or service might be the winner.

7. Confidentiality is a strict requirement of the entire competitive bidding process, beginning with the formation of a Project Team through to the award of a contract.

8. Once a competitive opportunity is posted, do not communicate with supplier’s interest in your project and all queries must be directed to the Procurement Services.

9. Do not discuss the bidding project with others outside of the Project Team or Evaluation Team. Leaks could lead to cancellation of the bidding process, or worse, litigation by an aggrieved bidder.

10. Do not share copies of any UFV documents or any submissions received in response to a competitive bid.
Bid Resolution Process

In the case of disputes over an awarded bid, the unsuccessful bidder must follow a specific course of action.

The first step is to schedule a debriefing with the Procurement Services. Debriefings must take place within fifteen (15) business days following Notice of Contract Award. Requests received after this time frame will be considered on a case-by-case basis.

If the matter is not resolved in the debriefing and the unsuccessful bidder still has concerns with a procurement process following a debriefing and wishes to formally dispute the outcome, they must file a written bid dispute notice with the Director, Supply Chain by registered mail, within fifteen (15) business days of the debriefing.

The bid dispute notice must include:

- The name and address of the bidder
- Reference number and title of the bid solicitation
- Detailed and factual statement of the grounds for the dispute
- Supporting documentation
- Designated contact during the bid dispute process
